- ✓ **316 stainless steel construction**
- ✓ **Embedded fitting technology**
- ✓ **Minimal hardware designs**
- ✓ **Fully engineered solutions**
- ✓ **Curved and spiral options**

VetraStep

Sentech's VetraStep is a complete line of fittings for step-on glazing systems. Our VetraStep system is ideal for designing highly transparent glass staircases, pedestrian platforms and glass bridges. Sentech offers embedded connections in all our engineered solutions for all glass pedestrian applications. Our product line also includes steel structures for staircases with curves or spirals for complex geometric applications.
