VETRAFIN T-SERIES

VetraFin T-Series

Sentech's VetraFin T-Series System is a highly efficient toggle connection system for facades with either full-height face glass or horizontal joints. The system allows for efficient field installation of glass units supported by glass fins, metal fins or steel trusses.

This proprietary system offers unparalleled flexibility in design and finish options, offering simple lines, minimal connections, and a unique look with no exterior hardware, bolts or plates. It can be used with monolithic, laminated or insulated glass.

- 6061-T6 Aluminum or AESS steel construction
- Walls 100'+ w/ mid-span bracing
- Walls up to 60' tall, w/o mid-span bracing
- Max. IGU size w/ high-performance coatings = 10'-9" x 60'
- Recommended max. fin spacing = 6' to 8'
- Use w/ monolithic, laminated & insulated facades
